RELAX!

Planning and creating a successful event can be stressful, we know! But our crew is here to help make things easy for you, so you can focus on the important thing, which is making sure your guests have a great time!

Some things to consider...

We'll do all the heavy lifting, but a little forethought goes a long way toward creating a successful event!

Will you need service staff?

Is your event going to need a casual buffet, formal table service, or something in between? Need bartenders? We've got you covered on all counts!

Do your guests have special dietary needs?

Like gluten free, vegetarian or vegan? No problem!

Dishes, Utensils, Tables, Settings

We can provide any of the things you may need, from table settings to actual tables or tents! Will disposable utensils suffice, or is it a more formal affair?

Delivery or Pickup?

We can accommodate you either way, but need to know in advance!

WE'RE HERE FOR YOU

The whole idea of hiring a caterer is to minimize your headaches, right? Once we begin working with your order, no matter how large or small, we're committed to making sure your mind is at ease, knowing that the job is being handled. Call us any time for support with your order!
